

REMARKS

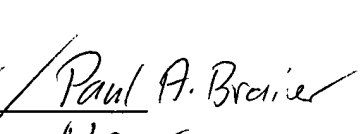

The Examiner is respectfully requested to enter the foregoing amendment prior to examination of the above-identified patent application. In this Supplemental Preliminary Amendment, claims 1-6, 9, and 10 are amended, claims 11-17 are added, and claims 7 and 8 are canceled. Thus, claims 1-6 and 9-17 are pending, of which claims 1, 12 and 16 are independent.

Applicants note that the instant amendment has been prepared to present the specification and claims in closer conformance with standard U.S. patent practice and standard US English. The amendments to the claims made in this amendment have not been made to overcome the prior art, and thus, should be considered to have been made for a purpose unrelated to patentability, and no estoppel should be deemed to attach thereto.

Should there be any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Emmanuel VILLARD et al.
